Pooltester Kits

Palintest Pooltester kits offer a range of kits for the private pool or spa owner. They are very simple to use - dip the Pooltester block into the pool to fill with water, add the test tablets and then compare the colours.

Pooltester kits are a quick and easy method for the routine control of private pools and spas.

Pooltester blocks are manufactured in durable clear polyacrylate and have long-lasting printed colour scale. They are supplied in a free-standing pocket-sized case.

TEST	RANGE mg/l / ppm
Chlorine (Free)	0.1 - 1 / 0.5 - 5*ppm
Bromine	0.5 - 8 ppm
pH	6.8 - 8.2
Total Alkalinity	0 - 250** ppm
Calcium Hardness	5 - 500 ppm
Cyanuric Acid	20 - 200 ppm
Copper	0 - 1.0 ppm
PHMB	0 - 100 ppm
Hydrogen Peroxide	5 - 50 ppm
Oxygen	1.0 - 15 ppm
Salt	800 - 8800 ppm (NaCl)

* (except SP 614: 0.2 - 3 ppm)

** (except SP 315: Water Balance calculation)

Replacement Reagents

* 20 each Peroxtest No 1 / No 2
